REPORT OF THE BOARD OF TRUSTEES

Dear Investors,

The Board of Trustees of JM Financial Mutual Fund is pleased to present the Annual Report of JM Financial Mutual Fund for the year ended March 31, 2023.

FUTURE OUTLOOK AND OPERATIONS OF THE SCHEMES

FY'2022-23 commenced on a highly uncertain note due to the Russia-Ukraine war which struck on February 24, 2022. The conflict between the two countries aggravated the adversities for the global economy, which hadn't even completely recovered from the COVID-19 pandemic. The supply-chain constraints across the world resulted in a unilateral increase in inflation to multi-year highs. Commodities including agricultural products, base metals and energy products witnessed a sharp surge in prices due to disrupted trade flow from Russia and Ukraine to the rest of the world.

Persistent inflationary pressures led to a major shift in global Central Banks, earlier view of higher inflation being "transient" to more "sticky" in nature. The US Federal Reserve adopted an aggressive approach in the path to curb inflation delivering a cumulative rate hike of 425 bps in calendar year 2022. Following suit, other advanced as well as emerging countries including India moved to tighter monetary policy. The RBI in an off-cycle meeting in May 2022 increased the policy repo rate by 40 bps.

During FY'2022-23, the RBI increased the policy repo rate by 250 bps to 6.50% to curb inflation while being watchful of growth. In tandem with the contractionary monetary policy, liquidity conditions remained tight throughout the year. Average liquidity surplus during the year moderated to ~Rs. 1.5 Tn from ~Rs. 6.5 Tn in the previous financial year.

The Government continued to support growth with a heavy capex push while also exercising measures to curb cost-push inflationary pressures. The increased fiscal deficit translated into higher government borrowing to the tune of Rs. 14.21 Tn. The borrowing programme sailed through without any support from the RBI in the form of Open Market Operations (OMOs). On the growth front, the domestic economy grew by ~7.0% in FY'2022-23 majorly led by higher investments by the Government and resilient domestic as well as global demand.

Yields in the domestic bond market hardened significantly during the year. The year ended with concerns on financial instability in the US banking sector, which consequentially moderated expectations of continued rate hikes during 2023-24. The 10Y G-Sec yield which was prevailing at 6.90% on April 04, 2022 rose to 7.31% on March 31, 2023 post an intra-year high of 7.62%.

Both the Sensex and Nifty went up by 2% and 0.6% and during the financial year ended March 31, 2023. Broader indices like BSE 100 went up by 0.73% while BSE 500 went down -0.91% respectively over the previous year.

Comparison of indices as on March 31, 2022 and March 31, 2023 is as follows:

SCHEMES OF JM FINANCIAL MUTUAL FUND ALONG WITH THEIR INVESTMENT OBJECTIVES AND PERFORMANCE COMMENTARY:

JM Low Duration Fund:

JM Low Duration Fund is an open ended low duration debt scheme investing in instruments such that the Macaulay duration# of the portfolio is between 6 to 12 months. A relatively low interest rate risk and moderate credit risk. The investment objective of the Scheme is to generate stable long term returns with low risk strategy and capital appreciation / accretion besides preservation of capital through investments in Debt & Money Market instruments such that the Macaulay duration# of the portfolio is between 6 months - 12 months.

The Scheme has trailed the benchmark over the last one year and is trailing close to the benchmark since inception. As interest rates stabilize we expect improvement in the performance.

JM Short Duration Fund:

JM Short Duration Fund is an open ended debt scheme investing in instruments such that the Macaulay duration# of the portfolio is between 1 year to 3 years. A moderate interest rate risk and moderate credit risk. The investment objective of the Scheme is to generate stable long term returns with low risk strategy and capital appreciation / accretion besides preservation of capital through investments in Debt & Money Market

This Scheme was launched in August 2022 and has trailed the benchmark since inception. As interest rates stabilize with a softening bias we expect an improvement in the performance.

JM Dynamic Bond Fund:

JM Dynamic Bond Fund is an open ended dynamic debt scheme investing across duration. A relatively high interest rate risk and moderate credit risk. The investment objective of the Scheme is to actively manage a portfolio with good quality debt as well as money market instruments so as to provide reasonable returns and liquidity.

The Scheme has outperformed the benchmark over the past one year as it maintained a lower duration. However it has trailed the benchmark marginally since inception. The fund should perform well going ahead as interest rates stabilize with a softening bias.

JM Medium to Long Duration Fund:

JM Medium to Long Duration Fund is an open ended medium term debt scheme investing in instruments such that the Macaulay duration# of the portfolio is between 4 years to 7 years. A relatively high interest rate risk and moderate credit risk. The investment objective of the Scheme is to generate stable long term returns with low risk strategy and capital appreciation/accretion through investment in debt instruments and related securities besides preservation of capital.

The Scheme has trailed the benchmark in last one year as the debt markets remained volatile as interest rates were on a rise. The Scheme had been largely investing in government securities and running a duration at the lower end of the mandate as the interest rates were on an upturn. The Scheme should perform well going ahead as interest rates stabilize with a softening bias.

JM Liquid Fund:

JM Liquid Fund is an open ended liquid Scheme. A relatively low interest rate risk and moderate credit risk. The investment objective of the Scheme is to provide income by way of IDCW (IDCW plans) and capital gains (growth plan) through investing in debt and money market securities with maturity of upto 91 days only.

The Scheme has trailed the benchmark in the last one year marginally. We expect the Scheme to post steady returns as interest rates stabilize.

JM Overnight Fund:

JM Overnight Fund is an open ended debt scheme investing in overnight securities. A relatively low interest rate risk and relatively low credit risk. The investment objective of the Scheme is to provide reasonable returns commensurate with low risk and providing a high level of liquidity, through investments made primarily in overnight securities having maturity of 1 (one) business day. The Scheme is a subset of the Liquid Fund Category. The objective of the Scheme is to invest in securities maturing on the next business day thus eliminating interest rate risks.

The Scheme has trailed the benchmark in last one year as well as since inception marginally. The Scheme's return will be driven by the overnight rates prevalent in the market, which in turn depends on the benchmark interest rates and systemic liquidity.

JM Arbitrage Fund:

JM Arbitrage Fund is an open ended scheme investing in arbitrage opportunities. The investment objective of the Scheme is to generate income through arbitrage opportunities emerging out of mis-pricing between the cash market and the derivatives market and through deployment of surplus cash in fixed income instruments. The Direct Plan of the Scheme has outperformed the benchmark in the last one year & since inception due to superior spreads of portfolio stocks. The Normal Plan of the Scheme has trailed the benchmark in the last one year. The above variation has primarily been due to the volatility in the fixed income markets.

Markets are expected to be volatile in the near future. This volatility is expected to help churn the arbitrage portfolio as few stock futures tend to trade at a discount to their cash market prices. The same can be deployed into fresh arbitrage in other stocks, whereby the returns of the Scheme could be enhanced.

JM Value Fund:

JM Value Fund is an open ended equity scheme following a value investment strategy. JM Value Fund is an open-ended diversified equity Scheme which aims to provide long term capital growth by investing primarily in a well-diversified portfolio of undervalued securities.

The investment objective of the Scheme is to generate long-term capital appreciation/income by investing in equity and equity related instruments across market capitalization of up to 30 companies.

Because of a higher concentration, the Scheme falls in the high risk – high return category.

The Direct Plan of the Scheme has outperformed its benchmark in the last one year however it has trailed the benchmark marginally since inception. The Normal Plan has outperformed the benchmark in the last one year & has trailed the benchmark since inception.

JM Large Cap Fund:

The Direct Plan of the Scheme has outperformed the benchmark in the last one year & has trailed the benchmark marginally since inception. The Normal Plan has trailed the benchmark since inception and in the last one year. The above variation has primarily been due to underexposure to Financials and stock selection in the Utilities sector.

JM Flexicap Fund:

JM Flexicap Fund is an open ended dynamic equity scheme investing across large cap, mid cap, small cap stocks. The Scheme is an open-ended diversified equity fund which aims to provide capital appreciation by investing primarily in equity and equity related securities of various market capitalisation.

#Concept of Macaulay Duration: The Macaulay duration (named after Frederick Macaulay, an economist who developed the concept in 1938) is a measure of a bond's sensitivity to interest rate changes. Duration tells investors the length of time, in years, that it will take a bond's cash flows to repay the investor the price he or she has paid for the bond.

Fixed income securities with higher duration have higher interest rate sensitivity i.e. the changes in price of higher duration bonds are higher as compared to lower duration ones.

A zero coupon bond is one which does not pay any interest and all payments are received at maturity. For a zero coupon bond, the duration is same as residual maturity

Abridged Annual Report 2022-2023

Formula: There is more than one way to calculate duration, but the Macaulay duration is the most common. The formula is:

$$\text{Macaulay duration} = \frac{\sum_{t=1}^n \frac{tC}{(1+y)^t} + \frac{nM}{(1+y)^n}}{P}$$

where: t = period in which the coupon is received, C = periodic (usually semiannual) coupon payment, y = the periodic yield to maturity or required yield, n = number periods, M = maturity value (in ₹), P = market price of bond.

Notes: Duration is quoted in "years." If a bond has a semi-annual period, we convert duration to years before quoting it (a duration of 8 semiannual periods is 4 years). Duration is a measure of interest-rate risk. Or, stated differently, duration is a measure of how sensitive the price of a fixed-income instrument is to interest-rate changes. When we say, "The duration of the bond is 4 years," we mean: "If the interest rate on the bond goes up by 1%, the bond's price will decline by 4%."

SWING PRICING FRAMEWORK

Swing pricing refers to a process for adjusting a scheme's Net Asset Value (NAV) to effectively pass on transaction costs stemming from significant net capital activity (i.e., flows into or out of the fund) to the investors associated with that activity during the life of a fund, excluding ramp-up period or termination. Swing pricing is an anti-dilution adjustment that seeks to protect investors in a scheme from performance dilution as a result of significant outflows from the scheme, particularly during market dislocation.

Accordingly, mandatory full swing during market dislocation times shall apply for the applicable schemes as per the framework and as disclosed in the respective scheme related documents.

In terms of SEBI circular dated September 29, 2021, disclosures pertaining to NAV adjusted for swing factor shall be made available by the AMC in the prescribed format in the Scheme Information Document and in scheme wise Annual Reports and Abridged summary thereof and on the website in case swing pricing framework has been made applicable for a mutual fund scheme.

During the period of the report, there were no circumstances which warranted application of swing pricing for any of schemes of the Fund.

INDEPENDENT AUDITORS' REPORT

**To the Trustees of
JM Financial Mutual Fund
Report on the Audit of the Financial Statements**

Opinion

We have audited the accompanying financial statements of the schemes mentioned below (collectively 'the Schemes'), which comprise the Balance Sheets as at 31 March 2023, the Revenue Accounts and Cash Flow Statement where applicable for the year ended 31 March 2023, and a summary of significant accounting policies and other explanatory information.

Name of the Schemes
JM Large Cap Fund
JM Focused Fund (Formerly known as JM Core 11 Fund)
JM Tax Gain Fund
JM Equity Hybrid Fund
JM Flexicap Fund
JM Value Fund
JM Arbitrage Fund
JM Midcap Fund

In our opinion and to the best of our information and according to the explanations given to us, the financial statements of the Schemes have been prepared, in all material aspects, in accordance with accounting principles generally accepted in India, including the accounting policies and standards specified in the Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and amendments thereto ('the SEBI Regulations') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- in the case of balance sheets, of the state of affairs of the respective Schemes as at balance sheet date;
- in the case of the revenue accounts, of the surplus, as applicable, for the respective Schemes for the period then ended on that date; and
- in the case of the cash flow statements, where applicable, of the cash flows of the respective Schemes for the period ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) the Institute of Chartered Accountants of India ("the ICAI"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Schemes in accordance with the 'Code of Ethics' issued by the ICAI together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management of JM Financial Asset Management Limited (hereinafter referred to as 'the AMC'), the Schemes' asset manager, is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows, where applicable, of the Schemes in accordance with accounting principles generally accepted in India, including the accounting policies and standards specified in the Ninth Schedule to the SEBI Regulations. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Scheme or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility for the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Schemes' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Schemes to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the management of AMC and JM Financial Trustee Company Private Limited ('the Trustee'), among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provided the management of AMC and Trustee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by Regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. In our opinion, the balance sheets and revenue accounts dealt by this report have been prepared in conformity with the accounting policies and standards specified in the Ninth Schedule to the Regulations; and
 - c. The balance sheets, revenue accounts, and cash flow statements dealt with by this report are in agreement with the books of account of the Schemes.
2. In our opinion, and on the basis of information and explanations given to us, the methods used to value non-traded securities as at March 31, 2023 where applicable, are in accordance with the SEBI Regulations and other guidelines issued by the Securities and Exchange Board of India, as applicable, and approved by the Board of Directors of the Trustee, and are fair and reasonable.

In Earlier years, JMFMF had invested in PassThrough Certificates (PTCs) of certain Trusts. The income tax department had initiated proceedings for recovery of tax on income earned from the PTC's by the Trust. JMFMF in response had filed a writ.petition in the Honourable High Court of Bombay and received a stay on the recovery proceedings. During the year FY 2016-2017 the Income Tax Appellate Tribunal has issued Order in favour of the assessee by not treating income from PTC as taxable income. The Income Tax Department had appealed against the said order but the Fund received a favourable judgement in FY 2021-2022 from the Income-tax Appellate Tribunal against the miscellaneous application filed by the department. Based on this order, the management is of the view that there will be no tax liability on the schemes of the JMFMF. However, in case the department decides to appeal in the High Court, there could be an adverse decision and tax liability (including interest thereon) will be debited to the schemes of the JMFMF.
